## TABLE OF

CONTENTS

## FOREWORD

PART	I.	SETTING THE STAGE	
CHAPTER	1	INTRODUCTION: THE MANAGERIAL IMPERATIVE TO	
		MASTER SUPPLY CHAIN DYNAMICS	15
	1.1.	It happens in the best of families	15
	1.2.	From spaghetti to asparagus: How firms changed completely in just two decades	18
	1.3.	The intellectual slaves of some defunct economist	24
	1.4.	The rediscovery of industrial dynamics	25
	1.5.	With both feet firmly on the ground	27
	1.6.	But with our heads in the air	28
CHAPTER	2	MODELS OF MAN: INTRDUCING THE LANGUAGE OF	
		SYSTEM DYNAMICS	35
	2.1.	Stocks & flows modeling and dynamics	36
	2.2.	Positive feedback	41
	2.3.	Negative feedback	43
	2.4.	Material delays	47
	2.5.	Intermezzo: Little's law for lead-times	51
	2.6.	Information delays	52
	2.7.	Casual loop diagrams	55
	2.8.	Systems archetypes of behavior	58
	2.9.	Oscillation	61
CHAPTER	3	BOUNDLEY RATIONAL: HUMAN LIMITATIONS TO EFFECTIVE	
		DECISION-MAKING IN DYNAMIC ENVIRONMENTS	67
	3.1.	Introduction: Living in a complex world	68
	3.2.	Rationality filters	70
	3.3.	Cognitive filters: Bathtub dynamics	74
	3.4.	Behavioral filters	83
	3.5.	Organizational filters	87
	3.6.	Strategic filters	94
	3.7.	A system dynamics perspective on decision-making	97

## TABLE OF

CONTENTS

PART	II	DEMAND SHOCK DYNAMICS IN SUPPLY CHAINS	
CHAPTER	4	THE CURSE OF CYCLICALITY: MANAGING SEMI-CONDUCTOR	105
	4 1	SUPPLY CHAIN DYNAMICS	105
	4.1.	The problem: Why are we always late?	100
	4.Z. 1 0	A model of an IC manufacturing supply chain	100
	4.3. 1 1	Model behavior: Understanding what happened in the real work	112
	4.4.	Policy analysis	124
	4.6.	Conclusions: The curse of cyclicality	135
CHAPTER	5	IN PRAISE OF LIES? ON INFORMATION SHARING IN HIGH-	
		TECH SUPPLY CHAINS	137
	5.1.	Introduction: Order status visibility during capacity shortages	138
	5.2.	Intermezzo: Upstream order amplification	140
	5.3.	The case study: ASML and the dotcom demand bubble of 2001	146
	5.4.	The model: A 3-echelon supply chain	155
	5.5.	Model behavior: Replicating what happened in the real world	165
	5.6.	Model analysis	1/2
	5.7.	Conclusions: Management insights	178
CHAPTER	6	RELEVANCE ASSUMED: SURVIVING MARKET GROWTH	
		DYNAMICS IN PROFESSIONAL SERVICES	181
	6.1.	Introduction: How to survive success	181
	6.2.	Performance measurement and the balanced scorecard	183
	6.3.	The case study: Sudden demand growth for legal aid services	191
	6.4.	The model: A learning service supply chain	199
	b.5.	Model benavior: Keplicating what happened in the real world	215
	b.b.	Policy analysis and design	221
	b./.	LONCIUSIONS	225

TABLE OF		$\frown$	
CONTE	ENTS		
PART	ш	WORKLOAD-OUALITY DYNAMICS IN NEW PRODUCT DEVELOPMENT AND INTRODUCTION	
CHAPTER	7	THE BOILED FROG: DECISION TRAPS IN MANAGING NEW PRODUCT DEVELOPMENT PROJECTS	229
	7.1.	Introduction: Why do product development projects fail so often?	230
	7.2.	Intermezzo: The allure of stage gates	231
	7.3.	The case study	233
	7.4.	Case analysis (1/2): Key feedback loops that drive behavior	239
	7.5.	Case analysis (2/2): Once more, why didn't they see it coming?	245
	7.6.	The model	255
	7.7.	Model behavior: Replicating what happened in the real world	264
	7.8.	Policy analysis	267
	7.9.	Conclusions	272
CHAPTER	8	PILOT ERROR? MANAGERIAL DECISION BIASES IN NEW	
	0.1	AIRCRAFT DEVELOPMENT PROGRAMMES	2/5
	<u></u> შ.  .	Introduction: Late arrivals	275
	0.Z. 0.2	Concurrent and Sequential engineering	2/9 201
	0.J. 8.4	Under the hood. Model structure	201
	8.5	Model behavior: Replicating what happened in the real world	295
	8.6.	Key loops driving behavior	299
	8.7.	Improving behavior	302
	8.8.	Conclusion	311
CHAPTER	9	THE SERVICE QUALITY CASCADE: MANAGING RAMP-UPS IN	
		SERVICE SUPPLY CHAINS	313
	9.1.	Introduction: Why does poor service prevail?	314
	9.2.	IT-enabled service supply chain dynamics	316
	9.3.	Capacity planning for service supply chains	317
	9.4.	The case: Broadband telecom services at KPN	324
	9.5.	A model of the IPB service supply chain	328
	9.6.	Model behavior: Replicating what happened in the real world	344
	9.7.	Policy analysis	349
	9.8.	Conclusions	357

## TABLE OF

CONTENTS

PART	IV	<b>RELATIONSHIP SPIRAL DYNAMICS: TRANSPARENCY</b>
		AND TRUST IN BUYER-SUPPLIER COLLABORATION

CHAPTER	10	TRAVAIL, TRANSPARENCY AND TRUST: BUYER-SUPPLIER	
		RELATIONSHIP DYNAMICS IN HIGH-TECH ELECTRONICS	361
	10.1.	Introduction: How to coordinate a decentralized supply chain	362
	10.2.	Transparency and trust in buyer-supplier relationships	363
	10.3.	The case setting	367
	10.4.	The problem-solving approach: Building transparency and	
		trust through travail	370
	10.5.	Case analysis: Travail, transparency and trust	372
	10.6.	A simulation model of transparency and trust in	
		buyer-supplier relations	374
	10.7.	Model behavior: Reproducing typical buyer-supplier	
		relationship dynamics	387
	10.8.	Model analysis	392
	10.9.	Conclusion	395
CHAPTER	11	VIRTUOUS AND VISIOUS CYCLES IN ERP IMPLEMENTATION:	
		INTRA-ORGANIZATIONAL COLLABORATION DYNAMICS	
		IN AEROSPACE	397
	11.1.	Introduction: Understanding ERP implementation dynamics	398
	11.2.	Success factors for ERP implementation from the literature	399
	11.3	The case: ERP implementation at Fokker Aerostructures	403
	11.4.	A model of inter-functional collaboration	407
	11.5.	Model behavior: Replicating what happened in the real world	419
	11.6.	Understanding the key loops that drive behavior	421
	11.7.	Policy analysis	425
	11.8.	Conclusions	434
	10		
UNAFTEN	12		107
	10.1	Introduction: How to move from a visious to a virtuous	437
	12.1.	relationship spiral	100
	12.2	The case setting	430
	12.2.	The problem: Changing markets and upphanging contracts	440
	12.3.	The problem, changing markets and unchanging contracts	44Z
	12.4.	the problem-solving approach. Moving nom buyer services	110
	10 5	to contracting performance	443
	12.3.	A model of outsourceal H buyer-supplier dynamics	431
	12.0. 10 7	Model enablish	4/2
	12./.	would analysis	482
	12.8.	LONCIUSIONS	485
